

SUMMER CAMP

Your Engineering Future Starts Here

Join **top STEM students** from across Europe from the **2nd to the 8th of August 2026**, for a week of **hands-on challenges, expert-led training, and real-world field experience.**

Connect, collaborate, and grow alongside bright minds in **electrical, mechanical, and computer engineering, physics, and beyond.**

Are you ready to push your skills to the next level?

Apply now or contact summer.camp@dewesoft.com

DEWESOFT HQ, TRBOVLJE - SLOVENIA

DEWESoft® SUMMER CAMP 2026

WHY JOIN

Step beyond theory and dive into real-world, hands-on experience. Work alongside Dewesoft engineers, gain practical insights into data acquisition, and unlock career opportunities that can shape your future in engineering and technology.

WHAT IS IT

An intensive week of theoretical and practical in-house training focused on a hands-on hackathon challenge. Compete, collaborate, and innovate with top STEM students from across Europe while solving real engineering problems.

FOR WHO

Designed for Bachelor's, Master's, and Doctoral students in STEM fields such as electrical, mechanical, computer, or aerospace engineering, mechatronics, artificial intelligence, physics, and mathematics who are ready to grow their skills and creativity.

PREREQUISITES

Before the event, complete at least ten online PRO Training courses and prepare a case study or application note. To arrange equipment rental and discuss your project, contact the event coordinator or your local Dewesoft office.

WHAT IS COVERED

In-house English-language training led by Dewesoft experts, all equipment and materials for the challenge, accommodation with breakfast, lunch, coffee, snacks, team-building activities, and an Award Ceremony dinner to celebrate your achievements.
